SGL Carbon SE moves up to the SDAX after all

- Correction by index provider due to incorrect data basis
- Inclusion on the chaining date of March 22, 2021

On Saturday, March 6, 2021, the Deutsche Börse AG Group announced that an incorrect data basis regarding the index changes published on March 3, 2021, had been corrected. As a result, the SGL Carbon SE share will be included in the small cap index SDAX on the chaining date on Monday March 22, 2021. The promotion to the SDAX is carried out within the framework of the so-called Regular Entry Rule.

The SDAX comprises 70 stocks, which follow the MDAX stocks in the ranking according to free float market capitalization and stock exchange turnover.

"We are very pleased that Deutsche Börse has corrected its previous decision and that we will be included in the SDAX," said Dr. Torsten Derr, Chief Executive Officer of SGL Carbon SE. "For us, the promotion is a confirmation of our restructuring efforts to date and at the same time an aspiration and obligation to consistently continue the path we have taken so far in the future."

SGL Carbon SE's results for the past fiscal year 2020 will be announced as planned on March 25, 2021.

About SGL Carbon

SGL Carbon is a technology-based company and world leader in the development and production of carbon-based solutions. Its high-quality materials and products made from specialty graphite and composites are used in industrial sectors that determine the future: automotive, aerospace, solar and wind energy, semiconductor and LEDs as well as in the production of lithium-ion batteries, fuel cell and other energy storage systems. In addition, SGL Carbon develops solutions for chemical and industrial applications.

In 2019, SGL Carbon SE generated sales of around 1.1 billion euros. The company has approx. 5,100 employees at 31 locations in Europe, North America, and Asia.

Materials, products and solutions from SGL Carbon are embedded in the major topics of the future: sustainable mobility, new energies and cross-industry digitization. Further developments in these areas demand more intelligent, more efficient, networked and sustainable solutions. This is where the entrepreneurial vision of SGL Carbon evolves around: contributing to a

Important note:

To the extent that our press release contains forward-looking statements, the latter are based on information that is available at present and on our current forecasts and assumptions. Forward-looking statements, by their very nature, entail known as well as unknown risks and uncertainties that may lead to actual developments and events differing substantially from the forward-looking assessments. Forward-looking statements must not be understood to be guarantees. Instead, future developments and events depend on a large number of factors; they comprise various risks and imponderables and are based on assumptions that may possibly turn out not to be appropriate. These include unforeseeable changes to fundamental political, economic, legal and societal conditions, particularly in the context of our main customers' industries, the competitive situation, interest and exchange rate trends, technological developments as well as other risks and uncertainties. We perceive additional risks e.g. in pricing developments, unforeseeable events in the environment of companies acquired and Group member companies as well as in current cost savings programs from time to time. The SGL Carbon assumes no obligation and does not intend to adjust or otherwise update these forward-looking statements either.
