

## Press Release

Wiesbaden, March 1, 2019

### **Innovation with Carbon at the Hannover Messe**

- Joint booth in the “Bayern Innovativ” network
- Innovation in additive manufacturing, hybrid materials and high-performance ceramics

At this year's Hannover Messe trade show from April 1-5, 2019, the “world's leading industrial show,” SGL Carbon's central research and development department will showcase current development projects at the joint booth “Bayern Innovativ”.

SGL Carbon's motto is “innovation with carbon” and will focus three major areas: Additive manufacturing with carbon and silicon carbide, hybrid materials with carbon, and high-performance ceramics. Among others, items including 3D-printed casting cores, pump housings and heat exchangers for aggressive media will be showcased. In addition, the team will present innovative carbon fiber textiles, CFRP-reinforced concrete and a metal-CFRP structure, as well as a test rocket nozzle infiltrated with silicon carbide.

You will find SGL Carbon at booth 52 in hall 002. We look forward to seeing you there!

### **About SGL Carbon**

SGL Carbon is a technology-based company and world leader in the development and production of carbon-based solutions. Its high-quality materials and products made from specialty graphite and composites are used in industrial sectors that determine the future: automotive, aerospace, solar and wind energy, semiconductor and LEDs as well as in the production of lithium-ion batteries and other energy storage systems. In addition, SGL Carbon develops solutions for chemical and industrial applications.

**In 2017, SGL Carbon generated sales of around 860 million euros. As of December 31, 2017, the company had approximately 4,200 employees worldwide in 34 locations in Europe, North America, and Asia.**

Materials, products and solutions from SGL Carbon are embedded in the major topics of the future: sustainable mobility, new energies and cross-industry digitization. Further developments in these areas demand more intelligent, more efficient, networked and sustainable solutions. This is where the entrepreneurial vision of SGL Carbon evolves around: contributing to a smarter world.

Further information on SGL Carbon can be found in the Newsroom of SGL Carbon at [www.sgllcarbon.com/press](http://www.sgllcarbon.com/press) and at [www.sgllcarbon.com](http://www.sgllcarbon.com).

**Important note:**

To the extent that our press release contains forward-looking statements, the latter are based on information that is available at present and on our current forecasts and assumptions. Forward-looking statements, by their very nature, entail known as well as unknown risks and uncertainties that may lead to actual developments and events differing substantially from the forward-looking assessments. Forward-looking statements must not be understood to be guarantees. Instead, future developments and events depend on a large number of factors; they comprise various risks and imponderables and are based on assumptions that may possibly turn out not to be appropriate. These include unforeseeable changes to fundamental political, economic, legal and societal conditions, particularly in the context of our main customers' industries, the competitive situation, interest and exchange rate trends, technological developments as well as other risks and uncertainties. We perceive additional risks e.g. in pricing developments, unforeseeable events in the environment of companies acquired and Group member companies as well as in current cost savings programs from time to time. The SGL Carbon assumes no obligation and does not intend to adjust or otherwise update these forward-looking statements either.
